

**First Climate is one of the prime Carbon Asset Management firms in Europe. We are a leading provider of carbon offset services, trading and advisory, with a strong global market presence in sourcing and procuring carbon credits.**

To strengthen our team, we are looking for:

## CDM Developers

*Position located in Beijing (China)*

Your role will be to manage the development of CDM projects within the CDM development team. You will also be responsible for preparing required documents for DNA approval, DOE validation and registration with the EB.

### Key Responsibilities

- Prepare Project Idea Notes (PIN) and Project Design Documents (PDD) in both Chinese and English
- Technical development of CDM projects
- Manage the CDM project cycle of our clients
- Assist in the preparation of new methodologies
- Assist during validation activity
- Organize meetings with relevant partners and stakeholders
- Supervise the implementation of monitoring plans for CDM projects

### Specific Requirements

You have graduated in Engineering or Science and can demonstrate relevant working experience. Knowledge of climate change policy and the Carbon Market, greenhouse gas emission reduction technologies as well as strong knowledge of methodologies and the CDM process are expected. Your ability to work as part of a multicultural and diverse team is accompanied by strong project management skills gained in the energy, waste or industrial sector. You are a team player with good analytical, problem solving and communication skills. Proficiency in both English and Chinese completes your profile.
