

**First Climate is one of the prime Carbon Asset Management firms in Europe. We are a leading provider of carbon offset services, trading and advisory, with a strong global market presence in sourcing and procuring carbon credits.**

To strengthen our team, we are looking for:

## **Project Finance Specialist**

*Position located in Zurich (Switzerland)*

You will be responsible for assessing and developing clean energy projects. Interacting with project promoters and developers, you will elaborate financial structures and present the investment opportunity to investment committees and financial institutions. You will be involved in conducting due diligence, contractual and financial negotiations. You will also support in the fundraising activities of the team by developing project information memorandums, prospectus, and investment structures.

Key Responsibilities:

- Assess and develop clean energy investments
- Review project information to determine project viability and attractiveness
- Conduct due diligence and risk assessment of the project and the promoters
- Develop financial solutions and manage commercial and financing negotiations
- Develop market and sector knowledge

Specific Requirements:

You have a degree in Economics / Finance or Engineering with an MBA and have a minimum of 3-5 years experience in a project finance environment such as a bank, consultancy, or private equity. You are familiar with emerging markets and possess a track record of developing and leading projects to a successful financial close. You will have worked on renewable energy projects and have a good understanding of the risks and issues involved. You are highly self-motivated, flexible and communicative with ability to work independently. Proficient in English is a must, other languages an advantage. Willingness to travel is expected.
