

First Climate is one of the prime Carbon Asset Management firms in Europe. We are a leading provider of carbon offset services, trading and advisory, with a strong global market presence in sourcing and procuring carbon credits.

To strengthen our team, we are looking for:

Director - Policy & Market Risk

Position located in Zurich (Switzerland)

You will lead and build up the team responsible for identifying, quantifying and managing risks as well as opportunities related to greenhouse gas policies and markets.

Key Responsibilities

- Analyse international and domestic policies related to energy and greenhouse gas abatement
- Compile and analyse information on Carbon Markets
- Establish and update long-term carbon price trends
- Identify, assess and manage portfolio risks related to policies and markets

Specific Requirements

You hold a university degree in Engineering or Science (Master or equivalent), preferably with experience in the Carbon Market. You can demonstrate a sound track record in policy analysis and market modelling. You are a highly self-motivated and communicative individual with several years experience in leading a team. Proficiency in English is a must, working knowledge in two other languages an advantage.

To Apply

Please send your electronic application to the Head Human Resources Management
