

**First Climate is one of the prime global Carbon Asset Management firms. We are a leading provider of carbon offset services, trading and advisory, with a strong worldwide market presence in sourcing and procuring carbon credits.**

To strengthen our team, we are looking for:

## **Consultant – Carbon Asset Development**

*Position located in Kolkata (India)*

You will be responsible for sourcing of CERs and VERs from carbon offsetting projects and the management of the existing Indian project pipeline. You will be closely inter-linked with the business development and execution teams within India, as well as with the international Carbon Asset Development teams. You will be further expected to actively develop new business activities which are related but not limited to the above described activities.

The CER and VER sourcing activities will be focussed on, but not limited to, India and neighbouring countries.

### **Key Responsibilities**

- **End to end management of CER and VER transactions:**
  - Identification of CER/VER purchase opportunities
  - Deal structuring and negotiation
  - Project due diligence and performance tracking
  - Supervision and coordination of registration and issuance process
  - Client relation management
- **Development of new business areas**
  - Awareness building and opportunity identification in voluntary or pre compliance markets
  - Identification of project finance opportunities in clean tech sector
  - Identification and development of business opportunities in domestic carbon related policy schemes

### **Specific Requirements**

You should have minimum 2 years relevant experience in the CDM consulting sector in India. You should have excellent analytical skills and relevant technical background. Excellent communication skills are a must.

### **To Apply**

Please send your electronic application to Head Human Resources Management:
