With 20 years of experience and over 500 large and medium-scale customers, First Climate is among the leading project developers and service providers in green electricity, carbon offsetting and water sustainability worldwide.

To further strengthen our team, we are looking for:

**Solar Photovoltaic Market Specialist in Colombia (m/f/x), full time**

*Position located in Bogotá (Colombia)*

First Climate Markets AG is a leading international service provider in carbon and renewable energy markets. As a specialist, we cover the entire value chain from project development to commercialization. With twenty years of market experience, we are one of the pioneers in this field. In our core markets, we are a leader and firmly established.

The First Climate team is made up of a group of dynamic, energetic and highly creative individuals who source and develop carbon offset, renewable energy and water projects for governments and corporate clients. To complement this vibrant team, we are looking for a “Solar Photovoltaic Market Specialist in Colombia”.

**Key responsibilities**

- Monitor the development of the solar photovoltaic market in Colombia
- Knowledge of the Colombian electricity market (auctions, incentives, among others)
- Identify solar photovoltaic projects in Colombia that may be eligible to generate carbon credits.
- List solar PV installations under the Program Solar Bonus
- Develop and manage a sourcing network among renewable energy device owners in Colombia.
- Develop commercial proposals and presentations, as well as public speaking
- Monitor the development of carbon markets in Colombia
- Develop projects and coordinate project development activities
- Engage with standard bodies and other relevant market stakeholders.
- Knowledge of sustainable development and climate change policy developments at the national and international level
- Proven networks with government (MADS, MinMinas), development banks, financial institutions and other public or private financial agencies in Colombia.

**Specific requirements**

The ideal candidate has a relevant university background and a minimum of 2 years working experience in the renewable energy sector and/or carbon markets in Colombia. Applicants should be experienced in business development and identifying GHG emission reduction projects and feel comfortable working with solar photovoltaic plants. Fluent spoken and written Spanish and English is required!

**What we offer**

You can expect a well-positioned company in a growing market with a committed, motivated team and flat hierarchies. Expect good work equipment and first-class development perspectives in the field of climate protection.

**How to apply**

We look forward to receiving your complete application including salary expectations and availability via E-Mail to careers@firstclimate.com.
